

Veterinary Technician or RVT Role

Looking for part-time contractors ASAP!

We are [360 PETCAB](http://360PETCAB.com), the first Pet Transportation company in the bay area.

We provide various services including
emergency transportation for ill and/or injured animals,
non-emergency transportation, inter-facility transports,
specialty medicine transport to UC Davis,
deceased pet transport, transport to your veterinarian for routine visit,
along with in-home care (*IV treatments, wound care, diabetic management*)

We pick-up your pet at your home or at your veterinarian's office.

COVID-19 precautions will allow you to shelter in place,
while we provide no-contact pick-up of your pet,
you are not required to travel with your pet to its visit.

We can deliver your pet's prescriptions from your veterinarian.

Duties include:

- Ability to lift 40+ lbs.,
- Ability to provide triage on the scene,
- Application of protection equipment for frightened pets (*muzzle/leash*),
- Ability to prepare an animal for transport on a stretcher,
- Ability to manage pets that may be in a fragile condition,
- Ability to administer oxygen via an oxygen concentrator.
- **Position requires being on call.**

Must Haves:

- Love of animals and empathy for their owners,
- Ability to think quickly on your feet to assess various situations,
- A positive can-do attitude,
- Ability to rapidly adapt to change.

We are a company with a family atmosphere and try to keep the fun in the day-to-day routine.

Please email your resume to me at Jeanne@360PetCab.com

I am happy to answer any questions you might have.
