

## **Anesthesia Technician/Scheduler (ANML HEALTH TCHN 3)**

[William R. Pritchard Veterinary Medical Teaching Hospital](#)

University of California, Davis

### Job Summary:

Independent of direct supervision in a hospital setting, as a significant part of daily duties, responsible for treatment of patients with life-threatening illness or injury, whose conditions are likely to change on a moment-to-moment basis, and inducing and monitoring anesthesia. Provide anesthesia technical support, create anesthesia protocols, induce, monitor, maintain and recover anesthetized animals, conduct anesthetic monitoring and recordkeeping, and promptly communicate peri-anesthetic concerns or problems to the veterinarian supervising anesthesia. Provide a broad spectrum of technical support for the Anesthesia service and communicate with the anesthesia supervisor regarding machine maintenance and supply needs.

### Minimum Qualifications:

- Must possess a California Registered Veterinary Technician (RVT) license, or hold a current license in another state and obtain a CA RVT license within 3 months from the date of hire.
- Experience to independently provide treatment of patients whose conditions are likely to change on a moment to moment basis.
- Experience working in a veterinary hospital performing physical examinations and safe handling of multiple species.
- Experience calculating drug dosages and administering medications intravenously, subcutaneously, intramuscular or orally.
- Experience responding to emergencies and providing CPR.
- Experience performing venipuncture, placing vascular catheters inducing anesthesia, monitoring anesthesia, and recovering patients from anesthesia, working independently with and without direct supervision.
- Skills to restrain and handle dogs, cats and the ability to learn safety skills to work with and around livestock, and horses.

### SPECIAL REQUIREMENTS:

The University of California has implemented a SARS-CoV-2 (COVID-19) Vaccination Program SARS-CoV-2 Vaccination Policy ([ucop.edu](http://ucop.edu)) covering all employees. To be compliant with the policy, employees must submit proof of vaccination or a University-approved exception or deferral.

The Veterinary Medical Teaching Hospital (VMTH) is a unit that provides clinical case material in support of the teaching programs throughout the School of Veterinary Medicine on a 24-hour basis. Its primary objectives are to train professional (veterinary) students, graduate clinical students (interns and residents), and graduate academic students; to provide veterinary services to the public; to serve as a referral center for practicing veterinarians, and to advance veterinary medical knowledge.

U.C. Davis is part of the 10-campus University of California system, and is located in the family-friendly and vibrant college town of Davis, with a Mediterranean climate and an excellent quality of life. An abundance of fun opportunities are offered by surrounding Northern California locales, including a myriad of State Parks, the Napa/Sonoma wine country, the San Francisco Bay Area, the northern coastal beaches and redwood forests, Lake Tahoe and the Sierra Nevada mountains, and the Foothill region wineries/Gold Country. We are only 3 hours to Yosemite National Park or the wineries and beaches of the Central California Coast. Short flights put Los Angeles or San Diego within reach! The Amtrak Capital Corridor connects the station in downtown Davis to the San Francisco Bay Area with trains running hourly. The state capitol city of Sacramento is 20 minutes away by car, with excellent restaurants and shopping districts. The town of Davis itself boasts a central, walkable downtown and excellent school systems, and has been named "best small town for cycling" by Bicycling Magazine, and "2nd most-educated city in the US" by CNN Money Magazine. A vibrant arts scene is headed by the UC Davis Mondavi Center, which hosts world-class touring acts. Come and enjoy the Northern California lifestyle!

Salary range: \$26.38-\$39.91/hour.

For full consideration, please apply by December 05, 2021.

Applicants will be screened after two weeks; and then on a weekly basis. The position can be filled prior to the removal date.
