

Registered Veterinary Technician in Cupertino, CA

At PetLight Therapy Centers, we utilize new **Advanced Light Therapy Technology** (newer and more advanced than Infrared or Cold lasers) in conjunction with **NMR-T**, a gentle, painless, and non-invasive form of soft tissue manipulation in a dedicated **Veterinary Facility**. This marriage of non-surgical therapeutic technologies is providing ground breaking results for dogs and cats who suffer from a variety of painful ailments and incapacitating maladies. We specialize in dogs who suddenly become paralyzed and help them to recover without Surgery.

- **Neck and Back Pain**
- **Limping or Lameness**
- **Weakness and Incoordination** (walking like a *Drunken Sailor*)
- We help **Paralyzed Dogs** to recover without surgery (Videos)
- Dramatically shorten **Post-Surgical Recovery**
- **Spondylosis and Arthritic conditions**
- **Sprains and Strains (e.g Cruciate Ligament)**
- **IVDD and Disc Conditions**
- **Pinched Nerves**
- **Soft Tissue Injuries**
- **Skin Conditions (e.g. Rashes)**
- We've helped dogs with **Autoimmune conditions**
- We've helped dogs with **Kidney Problems**
