

# Rehabilitation Therapist

## About the position:

Have a passion for helping pets recover from injury and stay fit into their Golden Years? Want to have fun and feel fulfilled watching your patients benefit from all we can offer week after week? Want continuous learning and growth? The **Canine Rehabilitation Center in Walnut Creek, CA** could be the place for you! The **Rehab Therapist** works under the direct supervision of a veterinarian to provide therapeutic exercises, underwater treadmill therapy, laser, shockwave, soft tissue work, and other therapeutic modalities for our patients. The Rehab Therapist also works closely with our clients to ensure that we work as a team to support the patient in the best way possible.

You maintain medical records and collaborate with clients and referring veterinarians on the pet's medical care. The position is also responsible for maintaining all aspects of the rehab center including the underwater treadmills. The Rehab Assistant works an established schedule which will include some Saturdays. The successful candidate will be able to work effectively and efficiently with the doctors and support staff as well as be able to work independently. We work with many debilitated patients of all sizes, so the position requires physical strength and the ability to lift up to 75 lbs.

## Benefits/Incentives:

- Competitive salary
- Paid vacation days
- Sick Pay
- Holiday pay
- Medical, dental and vision insurance available
- 401K Matching Retirement Plan
- Continuing education allowance
- Uniform allowance
- Employee pet discounts
- Employee Assistance Program
- Experienced veterinary staff who love what they do
- Positive, dedicated, and compassionate teammates

**Ideal candidate's qualifications should include:** a minimum of two years veterinary experience including patient care, client communication, intramuscular and subcutaneous injection administration, wound care, filling prescriptions, client education, medical record keeping.

Certification or training/coursework completed in canine rehabilitation therapy and/or experience in rehabilitation therapy is desired but we will train qualified candidates with a strong interest in rehabilitation therapy. Interest in becoming certified is also highly desired.

**Only applicants with a serious interest in veterinary rehabilitation therapy who provide cover letters with their resumes will be considered.** If you are interested in joining our dedicated and compassionate team and helping this exciting practice grow, we invite you to respond to this ad with the requested information. Become a part of something special for our pet patients and appreciative pet parents. We look forward to hearing from you! Please email your resume and cover letter to [mvhfamily@aol.com](mailto:mvhfamily@aol.com)
