

[Hancock Park Vet Clinic](#), "The Cozy Clinic that Cares", is looking for energetic and positive people to join our hospital staff. We pride ourselves on our small-town attitude in the big city, providing personable service to our clients and patients, utilizing state of the art diagnostics with a whole patient approach to care. Full time preferred, but part time is an option.

Seeking an **experienced RVT** who is looking to use their license to its fullest potential. At HPVC, we like our RVT's to have the responsibilities they have earned. What can't you do? Only that which CA doesn't allow: Make diagnoses, perform surgery or prescribe medication.

Responsibilities and Duties

- Client communication
- Medical records input
- Phlebotomy, IV catheter placement
- Cystocentesis
- Radiographs
- Placing bandages
- Assisting DVM in exams/treatments
- Performing full diagnostic ultrasounds (will train)
- Assisting in surgery/monitoring anesthesia. Anesthesia induction.
- Monitor and care for animals after surgery
- Maintain and sterilize surgical instruments and equipment
- Clean and disinfect cages, kennels, and examining and operating rooms
- Help provide emergency first aid to sick or injured animals
- Give medication or immunizations that veterinarians prescribe
- Perform routine laboratory tests
- Feed patients and monitor food/water intake
- Collect samples such as blood, urine, or tissue for testing
- Training/oversight of assistants
- Dental prophylaxis/extractions/suturing (will train)
- And much more....

Please email your resume and cover letter to ed.hpvc@gmail.com

Please note that you are an **RVT in the subject line.**
